

N-Aerus Conference

urban governance, diversity and social action in cities of the South

N-Aerus (Network-Association of European Researchers on Urbanization in the South)

N-AERUS is a pluridisciplinary network of researchers and experts working on urban issues in developing countries. It was created in March 1996 by a group of European researchers. Its objective is to mobilise and develop the European institutional and individual research and training capacities on urban issues in the South with the support of institutions and individual researchers with relevant experience in this field. N-AERUS will work in association with researchers and institutions in developing countries.
